University Career Services provides coordination and support for career development across campus.

- Employer and Internship Development & Outreach
- Coordination of 10+ University-wide career fairs and events that connect students to employers
- Provide consultation and support to multiple university partners to meet the unique needs of UNL students
- Develop career education learning outcomes and curriculum to connect career to the classroom and beyond

UCS has developed the Learning Outcomes Initiative for Career Management as a Life Skill to create a roadmap for students and ensure learning outcomes in:

- Exploration & Decision Making
- Experience & Skill-Building
- Communication & Promotion
- Search & Cultivation

The UII serves as a framework and process developed with intentions to:
- ...understand student participation in internships
- ...establish a standardized process that will report back to the university
- ...contribute to department accreditation, rankings, and connecting students to opportunities
- ...assist students in creating reflection habits during and post experience

UCS and UNL implemented a new system to strengthen student engagement, bring more opportunities and employers to campus, and collect data to leverage into trackable, visible results.

Handshake is a platform that enables connection to over 300,000 unique employers from every industry and region.
Dedicated to supporting students’ academic success and post-graduation transitions, Career Services coordinates with the Colleges to integrate career exploration, education and development within the undergraduate curriculum and with employers to connect students to career opportunities.
